<ul style="list-style-type: none">Built a real-time Weather Dashboard using vanilla JavaScript, integrating open APIs to display dynamic weather data with an interactive UI.Developed a To-Do List App using Next.js, implementing CRUD functionality, routing, and local storage for persistent task management.Created a responsive News Magazine Website using React.js and Bootstrap, focusing on component-based architecture and clean UI/UX.	
Organizer Google Developer Student’s Club	May 24- Present
<ul style="list-style-type: none">Led marketing campaigns for technical workshops and coding events, increasing student participation and visibility on LinkedIn.Organized and coordinated GDSC events, ensuring smooth logistics, promotions, and impactful learning experiences	

PROJECTS	
NEWS MAG - Real time news LINK	May 25- June 2025
<ul style="list-style-type: none">Developed a dynamic News Magazine Website using React.js and Bootstrap, featuring a responsive layout and modern UI design.Integrated multilingual support, enabling users to access news content in various global languages for an inclusive experience.Implemented real-time news updates on every page reload using external APIs, ensuring fresh, relevant headlines across categories.	
Weather Dashboard –A dynamic Weather app LINK	September 24- March 2024
<ul style="list-style-type: none">Created a responsive Weather App using vanilla JavaScript, allowing users to search weather by city name with real-time	

- data updates.
 - ☐ Integrated weather API to display current temperature, humidity, wind speed, and conditions like sunny, cloudy, or rainy.
 - ☐ Designed a clean and user-friendly UI to enhance accessibility across devices and improve overall user interaction.
- Movie-Web- App –Movie Exploration Platform| [LINK](#) July 23- August 2023**
- Developed a Movie-web-app using React and JavaScript , enabling user to explore a catalog of movies with detailed overview like title , genres, rating ,and summaries , fetched dynamically from the The Movie Databas (IMDB) API.
 - Designed a responsive and intuitive UI with HTML , CSS and Tailwind CSS , implementing features like movie search , category based filtering and a toggle for dark mode.
- Integrated IMDB API to retrieve real-time movie data, handling API requests with Axios and managing state with React Hook to ensure seamless data rendering and updates..

To-Do- Next.Js and Tailwind |

- ☐ Built a To-Do List Application using Next.js and Tailwind CSS, featuring task creation, deletion, and real-time updates with a sleek, responsive UI.
- ☐ Implemented efficient state management and clean routing to ensure a smooth user experience and maintainable code structure.

SaaS Hostel Management UX design | [LINK](#)

- ☐ Designed an intuitive and scalable SaaS-based Hostel Management App UI in Figma, optimizing user flows for both admins and residents.
- ☐ Created clean wireframes and interactive prototypes focused on mobile usability, feature accessibility, and visual consistency across screens.

CERTIFICATES

- Problem Solving Intermediate (HackerRank) October 2023**
- Mastered problem solving skills ,demonstrated proficiency in DSA and improved coding logics.
- JavaScript Certification (Complete Coding by Prashant Sir) March 2024**
- Gained hands-on experience with JavaScript fundamentals including variables, loops, functions, DOM manipulation, and basic event handling.
- Smart India Hackathon October 2024**
- From College of ours, selected as finalist for Smart India Hackathon .
- Udemy certification of Flask , python and HTML December 2024**
- Completed HTML,CSS,JS and Flask from Udemy
